# AFOLABI HABEEB OLUWAFERANMI

*Web Developer | Front-End & Web Applications*

Lagos, Nigeria | afolabihabeeb71@gmail.com

## PROFESSIONAL SUMMARY

Web Developer with hands-on experience building responsive websites and interactive web applications using HTML, CSS, JavaScript, Tailwind CSS, and React. Experienced in integrating APIs and backend services with Supabase, implementing authentication and persistent data, and deploying projects through GitHub and Netlify. Comfortable translating design concepts into functional interfaces and building user-focused web experiences. Currently pursuing a B.Sc. in Information Systems, with a strong interest in modern web development, problem-solving, and continuous technical growth.

## EDUCATION

**B.Sc. Information Systems**

Osun State University (UNIOSUN) • *100 Level — Present*

## TECHNICAL SKILLS

- **Frontend:** HTML5 • CSS3 • JavaScript • React • Tailwind CSS • Responsive Web Design • DOM Manipulation
- **Web Applications:** API Integration • Supabase • PostgreSQL • Authentication • Persistent Data • CRUD Operations
- **Development & Deployment:** Git • GitHub • Netlify • Website Deployment
- **Design:** Figma-to-Code • UI/UX Fundamentals • Responsive Interface Design

## PROJECTS

- **Docket — Product Feedback Web Application** — HTML, Tailwind CSS, JavaScript, Supabase, PostgreSQL, Netlify. Built a full web application for collecting and interacting with product feedback; implemented responsive UI, Supabase authentication, persistent PostgreSQL-backed data, and interactive application logic. Live Project
- **Gracolak Global Services — Business Website** — Responsive business website built with HTML, CSS, and JavaScript, featuring structured product/service sections, customer-facing contact functionality, and responsive presentation. Live Project
- **4D Mav's Nation Streamer — Music Website** — Responsive music-focused web experience built with HTML, CSS, and JavaScript, with interactive frontend functionality and a modern desktop/mobile interface. Live Project

## PROJECT EXPERIENCE

- Built and deployed responsive websites and web applications from concept through production.
- Integrated backend services and APIs to provide dynamic functionality and persistent application data.
- Used Git and GitHub to manage source code and iterative development.
- Deployed live projects through Netlify and maintained production updates.
- Applied responsive design and UI/UX principles to create user-focused interfaces.

## CORE STRENGTHS

Problem Solving • Communication • Team Collaboration • Time Management • Adaptability • Continuous Learning

## PROFESSIONAL FOCUS

Interested in freelance and entry-level opportunities involving responsive websites, small business websites, landing pages, web applications, API integrations, Figma-to-code implementation, and website deployment.
